Join us for a seminar that goes beyond what you already know. The latest University of Florida research will inform you on fertilizer application of turf including the summer use of nitrogen and phosphorus fertilizers; the examination of various cultivars of St. Augustinegrass and Zoysiagrass and how they stack up against the elements and pests; and recognizing and controlling the complex of insect pests that frequent our southwest Florida lawns and turfs.

**Date:** Wednesday, April 20th, 2011  
**Check-in:** 12:30 pm—1:00 pm  
**Seminar:** 1:00 pm—4:00 pm  
**Location:** 3406 Palm Beach Blvd (Exit 141 off I-75), Fort Myers, FL  
**Cost:** $15 per person on-line or $20 at the door

**Presented by:**
